Revolutionizing Education through Technology book link [Here](#)

Two LMS teachers, Bethany Kearl and I are representing LMS this summer at the ISTE conference in Denver June 26-29. The front of their website <https://conference.iste.org/2016/> promotes: 500 companies, 16,000 educators, and 1,000 sessions. I will not be leading a session, but an exhibitor for the company TechSmith that makes Camtasia, Snagit, and the cell phone app Fuse. It's what I use to make flipped videos for my classes. Bethany and Bobby Lehman are leading a session on the use of Google Classroom.

Presenters From the District:

Launching Next Generation Learning with 1:Web! - Poster	Ed Tech Team
Student Showcase: Don't Turn It In, Publish It! - Poster	Ed Tech Team
Develop Digital Literacy Skills With Google Search - BYOD	Ed Tech Team

This conference represents the cutting edge in the latest classroom technology, and is a must for young educators and the old nerds like myself. If you're interested in going to this year's conference, use BVSD's group code AF9D to get the best rate. And if you do plan on going, definitely let us know! We'll have a few get-togethers at or near the conference site! Hope to see you there!
